Pneuma LIVE: <https://pneuma-frontend-oijl.onrender.com>

Email: chuks.techstack@gmail.com • Remote • Open to Global Internships

PROFESSIONAL SUMMARY

Product Engineer shipping real products end-to-end. Built and deployed **Pneuma** (full-stack community platform, live) over 4 months — product, frontend, backend, real-time, deployment. Now building **Zindex Ecosystem**: Motherboard AI (Python brain) + silent modules — Z-Focus (Kotlin Android shipped, C#/.NET Windows in progress), Z-Job (React Native + Python + Llama AI job checker), Z-Scan (PC diagnostics).

EDUCATION

University of the People | B.S. Computer Science — Incoming, Scholarship Recipient — Start: September 2026

SELECTED PROJECTS

● PNEUMA — Full-Stack Community Platform | Product Engineer (Independent, Deployed)

Live: <https://pneuma-frontend-oijl.onrender.com> | GitHub: <https://github.com/chukstechstack/pneuma-> | Portfolio Case: <https://ce-kingsley-portfolio.onrender.com>

- Independently designed & built complete community platform: profiles, content creation, engagement, comments, auth, image handling, real-time private messaging via Socket.io. Owned product, UI/UX, frontend, backend, DB, deployment.
- Stack: React, TypeScript, Node.js, Express, PostgreSQL/Supabase, Prisma/Drizzle, Passport.js OAuth, Socket.io, TanStack Query, Sharp, Redis, Render.

● ZINDEX ECOSYSTEM — Motherboard AI + Silent Workers | Product Architect (In Development)

Vision: zindex = Brain + Chatbox + Extension (CEO, always-on). User talks ONLY to zindex. Z-Focus, Z-Jobs, Z-Scan = silent workers bossed by zindex. Notifies: 'Z Jobs found 3 jobs. Open?'

Architecture: Phase 1: Z-Focus C#/.NET (current) → Phase 2: zindex Python brain + extension → Phase 3: Z-Jobs & Z-Scan via IPC localhost:8765.

■ Z-Focus | Focus & Device Control | Kotlin + C# XAML .NET — Phase 1 Current

- Android Kotlin — Shipped:** focus timer, app blocking, Device Admin. **PC v1 C# XAML .NET 8 WPF — In Progress:** Start, Timer picker, Blocklist (TikTok/IG/YT), WiFi kill, Quick Mode 30min, 10-min warning, CommandServer for Python zindex.

■ Z-Job | AI Job Checker | React Native + Python + Llama — In Progress

- React Native (Expo) + Python FastAPI backend scraping jobs, Llama (Ollama/llama.cpp) for resume-to-job matching, push to zindex. Stack: React Native, Python, FastAPI, Llama, PostgreSQL, Redis, Firebase.

■ Z-Scan (Planned) | PC Diagnostics | C#/.NET

- Scan errors/viruses, watch VS Code health, report to zindex brain.

● CHOICE | Mobile Security & App-Blocking App | In Development

- Robust restriction reducing bypass, applying Z-Focus Device Owner patterns.

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, SQL, Python, Kotlin, C#, XAML
- Frontend & Mobile:** React, React Native, Expo, WPF/XAML, WinUI, Vite, TanStack Query, Context API
- Backend & AI:** Node.js, Express, FastAPI, Socket.io, Llama.cpp / Ollama, REST APIs, MVC
- Databases:** PostgreSQL, Supabase, Prisma, Drizzle, MongoDB, Redis, Vector DB (planned)
- System:** Device Owner/Admin, App Blocking, netsh, Windows Firewall, OAuth, bcrypt, JWT
- Cloud & Tools:** Render, Firebase, AWS S3, Supabase, Git, VS 2022, Android Studio, Postman
- Product:** Figma, Framer, Wireframing, Prototyping, User Flows

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp — Angela Yu | MIT Microeconomics (independent) | HubSpot Inbound Marketing | Product Design & UX (Don Norman)

Building Zindex motherboard AI. Strong independent ownership, learns unfamiliar tech fast. Open to fully remote global internships.
